The International Journal of Science and Research (IJSR) is a monthly, open access, peer reviewed international journal with very low research paper publication fee. Being an international journal focused on Engineering, Management, Science and Mathematics, we broadly cover research work on next generation cutting edge technologies and effective marketing strategies. International Journal of Science and Research have the team of Scientists and Academicians who are dedicated to help and improve your skill by providing guidance for writing high quality research papers through peer reviewing. Critical evaluation of each research paper is a prime focus of each member of International Journal of Science and Research (IJSR), Ensuring novelty in each research paper being published in International Journal of Science and Research (IJSR).

Frequency: 12 Issues Per Year

Areas Covered: Multidisciplinary

Type of Articles:

Research Paper, Survey Paper, Informative Article, Case Studies, Review Papers, Comparative Studies, Dissertation Chapters, Research Proposals or Synopsis, M.Tech / M.E / PhD Thesis

Benefits to Author & Members:

- CrossRef DOI is assigned upon request.
- Fast response to Author Queries, 24 x 7 via EMail and Live Chat Support System.
- Consistently Publishing since year 2012 with Authors from over 87 Countries and 88+ Subject Areas
- Online Generation of "e-Certificate of Publication" to all Authors of published papers.
- Article is published within 3 Working Days of completing Final Submission.
- Complete Online Processing from Submission to Publication.
- Online Tracking of Certificate Hard Copy Dispatch Status.
- 10 % Discount to Reviewers Panel Members.
- 25 % Discount to Editorial Board Members.
- Online Hosting Partner of International & National Conferences.
- Easy Payment Options with Discount Consideration to our Elite Authors.
- Open Access Index, Authors can download all Papers Free of Charge.
- Globally accepted and is one of the leading International Journals.
- Team of prestigious academic Editors / Reviewers from various Countries.
- We value Author Feedbacks and Improve Accordingly.

With Warm Regards,
International Journal of Science and Research (IJSR)

Law Enforcement in Indonesia: History, Progress and Public's Trust

Dr. Boy Nurdin

Abstract: Issues related to the position and function of Judges or other Law enforcement officials for the Law Enforcement in Indonesia are found, especially those judges who defined as a key person and becoming a central role in law enforcement for Legal Cases. Initiated from that the study of history and developments on how the independence of the Judiciary and Judicial Power Institutions in Indonesia was carried out. Independence of Judicial Institutions and Judicial Power began in the ?Old Order?, ?New Order? and ?Post-Reform? era. In fact, the period of years of 1999-2006 has been found when the 1945 Constitution was implemented for the concept of independence of judicial power. This means that the concept of independency tends to organize judicial power into truly freedom, namely a concept of which completely independent of the influence of power. To affirm the extent of the independence of judicial power and the performance of judges as keys and important figures in judicial process, therefore one research was conducted to see how the public's trust on law enforcement in Indonesia. The study was conducted toward 100 (one hundred) respondents from various professional backgrounds, randomly taken and domiciled in 6 (six) major cities in Indonesia. It is concluded from the research that the public's opinion and public's trust toward the judicial process in Indonesia is still yet not positive. The public response shown tends to be "negative" from various matters related to the judicial process, judicial institutions, judicial costs and many others. The public's perspectives are certainly based on the empirical experience of the Indonesian people involving their own legal cases or even only understanding legal cases discussed in the media in Indonesia.
